

Introducing the Autobag® 850S™ Mail Order Fulfillment System - The widest, and most technologically-advanced system for mail order fulfillment bagging.

The new Autobag® 850S™ bagger is uniquely designed to provide enhanced packaging productivity for mail order fulfillment applications. Capable of running bags up to 22" wide, this system features a breakthrough bag opening technology that securely grips and holds the open bag in place. This creates a large, square opening (up to 11" x 11") that allows for easy loading of single or multi-line orders.

Next-bag-out printing is achieved with an advanced thermal transfer imprinter positioned directly over the next bag to be loaded. This ensures accuracy and efficiency in fulfillment applications that require frequent product and label changeovers, and prevents product queuing.

State-of-the-art engineering has resulted in a system that is inherently safe. The Autobag 850S eliminates the need for bulky guarding or devices required for safe operation. This unobstructed access makes loading ergonomic and improves operator throughput.

When used with genuine Autobag pre-opened bags-on-a-roll, the Autobag 850S ushers in the next evolution of high-quality, reliable and flexible mail order fulfillment packaging, backed by the industry's most comprehensive engineering and field service network.

TYPICAL APPLICATIONS

- Single or multi-line mail order fulfillment
- Prescription-by-mail fulfillment
- Apparel
- Fashion Accessories
- Sporting Goods
- Footwear

STANDARD FEATURES

- **Industry's Widest** - Capable of running bags up to 22" wide
- **High Quality Seals** - Coordinated seal flattener for wrinkle free seals
- **Continuous Film Control** - A sophisticated tension control unit centers and monitors the position of the film throughout the entire bagging process
- **Compact** - Compact footprint minimizes floor space
- **Flexible** - Easily integrates with third-party systems
- **Adjustable** - Simple height adjustment and casters for operator comfort and portability

OPTIONS

- Rear Takeaway Conveyor (Optional label up mechanism)
- Side Exit Takeaway Conveyor

Breakthrough Technology
Advanced bag opening system minimizes bag size and facilitates multi-line orders

Easy Loading
Modular bag storage shelf that speeds bag changeovers

Intuitive Interface
AutoTouch™ Control Screen accesses operator tutorials, help system, on-board diagnostics, data retrieval, and performance monitoring. It features menu or graphic-based selection options.

MECHANICAL FEATURES

Next-bag-out printing prevents product queuing and reduces waste

Simple bag threading for easy changeover to keep production lines running smoothly

Programmable pass-through up to 11" for maximum flexibility

Unobstructed access minimizes guarding for easy access to the open bag

TECHNICAL SPECIFICATIONS

Weight: 590 lbs.	Pass-Through: Up to 11 in.
Electrical: 110/220 VAC switchable 50/60 Hz, 1,800 watts continuous	Bag Thickness: 1.09 – 4.0 mil
Air Feed: 5 CFM/80 psi of clean, dry air	Bag Sizes: W 10 to 22 in. L 10 to 36 in.
Dimensions:	Wt. Capacity: Up to 10 lbs. (with load shelf)
