

Combi TBS-100 XL Random: Random Height Case Sealer

Combi offers a reliable random case sealing solution for cases with similar width but varying height and length. Ideal for egg producers, multiple lines of packed cases can feed into this one case sealer. A series of photo eyes sense the height of the incoming case, communicate to the servo and the height of the top taping head is automatically adjusted. 3M Accuglide™ tape heads efficiently seal the top and bottom of the cases, while tape roll changes are easy to perform. Using the same heavy duty tubular steel frame as other Combi systems, the TBS is built tough for years of top performance.

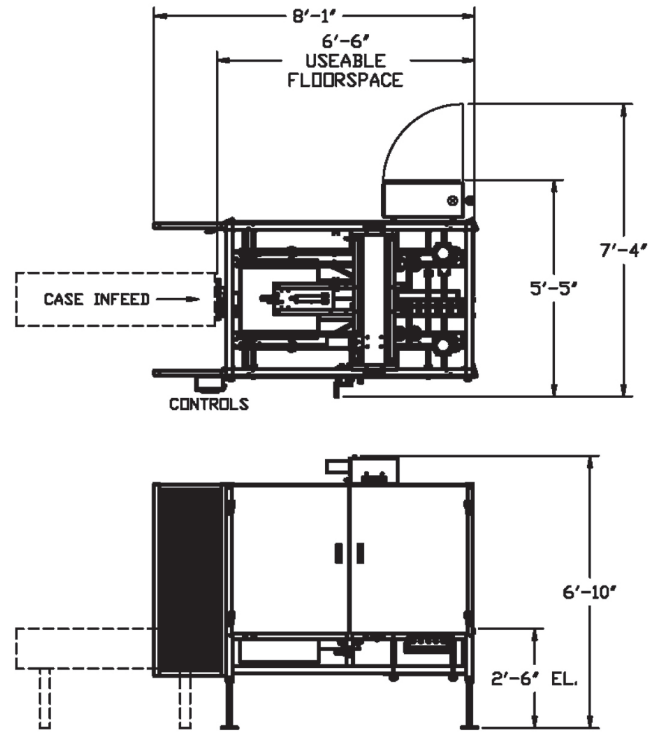

STANDARD FEATURES

- Heavy duty tubular steel construction
- Lifetime warranty on structural framework
- Height sensing photo eyes
- Case infeed metering gate
- Servo height adjustment
- Auto case length sensors for flap kicker
- Full guarding package with safety interlocks and hinged doors
- 3M Accuglide™ top and bottom tape heads

OPTIONS:

- 3" Wide Tape Head
- Stainless Steel Construction
- Modifications to Discharge Elevations
- Heavy Duty Locking Casters
- Low Tape/No Tape Alarm Kit
- Spare Tape Heads
- Spare Parts Kit
- Voltage other than 240V
- Bypass Mode
- Pneumatic Side Belt Case Width Adjustment for "Egg Crate" pass through
- Lower Tape Head Retract for Reusable Totes
- Paint Specifications
- UL Approval for Main Electrical Panel
